

### English

In English we will create pieces of work around the Romans, including Pompeii. This will include diary writing, descriptive techniques and story writing. We will also be looking at more technical aspect of writing and ambitious vocabulary.

### Science

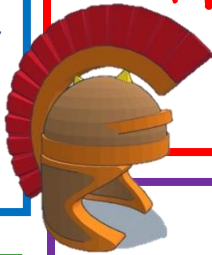

In Science we will be looking at the circulatory system. This will include how the heart and lungs work, why the double circulatory system is important, how pulse rate changes with exercise and why it is important to keep healthy.

### History

In our topic on the Romans we will explore Ancient Rome and life in Roman Britain. We will look at daily life, engineering, beliefs, the army, Hadrian's Wall, the settling of Britain and the resistance.

# The Romans

## Summer Term

### Art

We will be creating Roman shields and mosaics, as well as more in depth studies for the summer art shows. Art will also be taught by Miss White.

### Other events

This half term we will be running a book fair, holding a village sale, attending creative writing workshops and creating work for an Art exhibition.

### Music

We will be learning Samba drumming this term, as well as continuing singing.

### ICT

ICT this half term will focus on coding. Children will recap skills in processing code and using programs such as Scratch and Kodu to create different projects.

### PE

The class will be receiving athletics coaching from Mr Rickets (Mondays) and working on team games with Mr Vincent (Wednesdays).

### French

Mrs Hawkins will be continuing to teach French, focusing on conversational skills.

### PSHEE

PSHEE this term will focus on change and transitions, as well as self-regulating our behaviour and emotions, in preparation for transition at the end of the year.
