

Pipit Class Outdoor Learning

Today we enjoyed our Outdoor Learning with Mr Hopper. We had to work as a team for all of our activities. We made circles, squares and even a rectangle with ropes. Then we were very brave as we followed Mr Hopper and his noisy drum using just our ears as our eyes were covered with a blind fold! We had a well earned hot chocolate.

After our little rest we then did an “Egg splat challenge.” We were allowed to buy items to protect an egg so that when it was thrown it did not break. We had to pay 1p for every piece of protective material. We chose from: plastic cups, sticks, elastic bands, kitchen roll, cardboard and paper. Amazingly no ones eggs were broken when they were thrown and landed on the ground! What great team work and ideas!

After this we had to complete another team challenge and carry water through an obstacle course to make safe a pretend rocket

by filling the rocket launch tube with water to enable the bomb inside to float to the top. It took us quite a while as we could only use plastic cups to fill the tube.

We also had to work as a team to create a water fall using guttering!

Lastly we tried a stealth challenge. We had to sneak up on Mr Hopper, who was blind folded, and get a sweetie from his bag. However, he did have two water pistols and if he heard us coming he could squirt us with water! I think a few of us got wet but it was worth the reward.
